

A person-centered approach to support behavior change, empower individuals to achieve their goals, and promote positive outcomes.

Free to everyone through 12/31/20 - a savings of \$42!

Fran 3 Contact Hours

This three module online course for RNs and APRNs delivers a fundamental skill that every nurse needs in their practice: motivational interviewing. Through a blend of case studies, vignettes, and reflective questions, you will gain an understanding of how to use this approach to guide individuals through change that supports their recovery and wellness.
